Referee Emergency (Coaches: only use for missing referees): 503-332-5432

Game Day Hotline (For all other issues with games/rules. Answered on game days): 971-732-9897

Rules

League Rules [OYSA Development League Rules](#)

You can find our rules in the Development League section of www.oregonyouthsoccer.org. Please print, read, and **UNDERSTAND** the rules for this league. Rules are attached. Below are some important rules to know:

- No roster, no game – exception is if only one team is missing the match roster, the referee

may use the single copy provided by the other team for the official match roster as that roster lists both teams. Digital Rosters are another option.

- Club Pass Players – Teams are allowed to Club Pass players from within your club. **No players are allowed from another club.** Coaches can write in Club Pass players on their rosters as well as use the Club Pass feature through Affinity. Using Affinity is preferable as it will not allow a coach to make a mistake by rostering a player that is too young, from another club, etc. Instructions on how to use this feature are attached.
- Only developmental and competitive players who are age eligible can be club passed. *****No recreational or futsal player/coaches may be used in this league.***** The system will only allow you to club pass “legal” players, so use this feature if possible. If you are going to handwrite in a player, MAKE SURE that the player is age/gender legal to play on your team. The rules have the play up ages. Bottom line: if the system doesn’t allow you to Club Pass a player or you hand write in a player that is not eligible, THEY ARE NOT ELIGIBLE TO PLAY, and you will forfeit that game, and face a fine/suspension.
- **ALL COACHES MUST HAVE CARDS** – Cards may be digital or printed. If printed, coaches cards must be printed (in color) from the Affinity Software System, have a current photo of the coach and be laminated.
- Match rosters must be printed from the Affinity Software System only and must be the Official Match Roster listing all game details and both teams participating. Instructions on how to print your official match rosters are in the [AGR document](#) attached. No other rosters will be accepted. Match rosters will be available for printing the Thursday before your weekend game.
- This gives us 3 days to make sure scores are correct and disciplinary issues have been entered. Each match roster is unique to that game. If your roster does not have both teams listed, it is the incorrect roster to use.
- Bring your Official Match roster (printed from the Affinity System) to each match. Each match roster is unique to that game. If your roster does not have both teams listed, it is the incorrect roster to use.

Let’s be patient and show respect to everyone - and please ensure that parents are not overzealous on the sidelines.

Active Players

U8 teams may have 22 players on the team roster, but no more than 8 players are permitted to participate **in each match**. U9 – U10 teams may have 22 players on the team roster, but no more than 14 players are permitted to participate **in each match** When a team’s printed match roster shows more players than are allowed to play in a match, the team must indicate which players will not play by drawing a line through those players’ names before the match roster is given to the referee for check-in. Coaches are also able to use the Club Pass feature. See above.

If you have any questions regarding the league, please feel free to drop me an email or give me a call. Also, always check on-line at www.oregonyouthsoccer.org for information and updates.
